PLASTICS RECYCLERS ANNUAL MEETING

21-22 NOVEMBER - BRUSSELS

Plastics Recyclers Annual Meeting is a two-day event, which gathers roughly 200 participants from the whole plastics value chain. The aim of this meeting is to explore the latest developments, market changes, future trends and innovation in the sector.

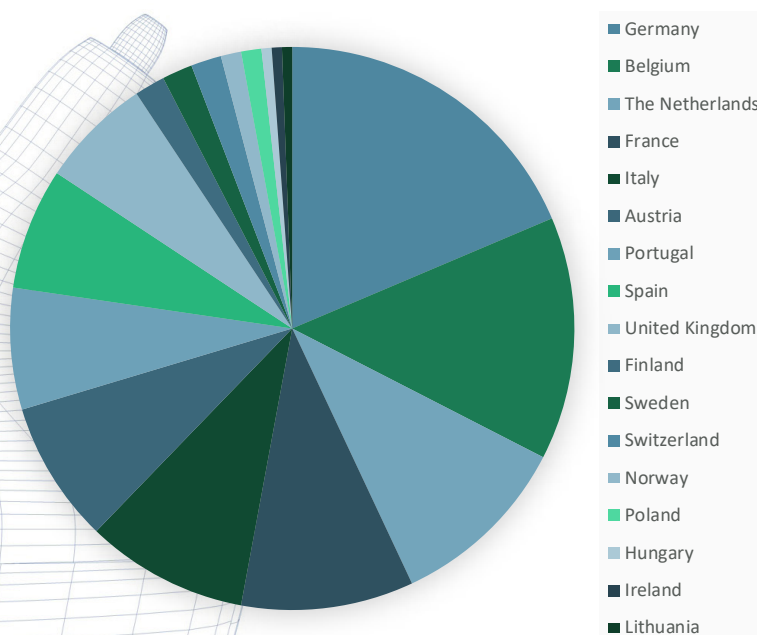

During the last edition of the Annual Meeting, roughly half of all the participants were recyclers. Other participants included representatives from the EU institutions and Member States, brand owners, retailers, waste management companies and recycling machinery manufacturers.

Sponsorship is one of the essential elements of the Plastics Recyclers Annual Meeting. The event is a perfect platform to promote your brand across the recycling industry and network with your existing, as well as potential costumers and partners.

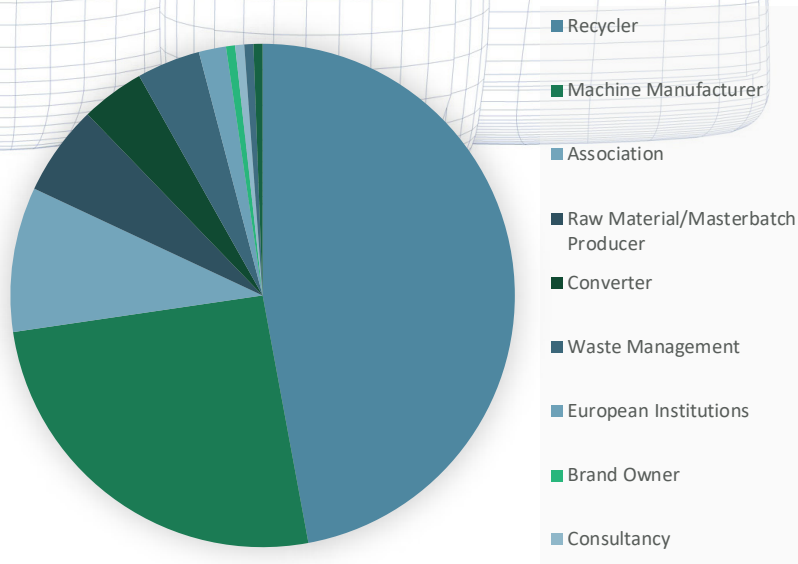

Different sponsorship packages are available, as you can read in the following pages. These packages will enable your company to build brand awareness and maximize exposure during the event. A list of companies participating in 2018's edition is also included.

If you are interested in sponsoring the event, kindly fill in the enclosed form.
